Major/Minor Projects

On-going

1. Pali Morphological Generator and Analyser

This project is funded by Pali Institute, Kalaburgi to develop computer tool for generating and analysing Pali words. The tool is being developed based on the Paninian rules. This module will help the reader to understand the Pali texts. It will be a helping hand for the beginners of Pali language.

2. Sarvapatyayamālā

Sarvapatyayamālā is a grammatical treatise written by a Keralite Shankararya in verse form. All praryayas of Paniniyan grammar with suitable illustrations are narrated beautifully in this treatise. Six manuscripts are available at various institutions. The object of the project is to edit the manuscripts critically and publish with pratyaya index.

Handled

1. Chinmayagranthapushpam

Collection and Publication of erudite scholars.

2. Morphological Analyzer

Developed a Computer Tool to analyse the Sanskrit Words. It will analyze a given

word or a text and produce the grammatical features as root, gender, number etc. as output.

3. Vacaspatyam

It will produce the syntactic and semantic part of any word of Vacaspatyam. Tagset Design and Tagging was done by me in this project.
