Karnataka Samskrit University

KSU was established with the objective of promoting higher learning, and research in Samskrit language & literature; particularly in the context of its relevance in the modern world. The unique feature of the university is that it welcomes students across all ages. Over the years, it has successfully attracted young as well as experienced professionals looking for career change post midlife to pursue alternate careers. Two constituent colleges and two research institutes are working under KSU. The University also oversees 32 affiliated colleges.

With the current dynamic situation and disruption of the old ways of teaching, faculty in universities and colleges need to keep pace with the new demands while ensuring that the quality of teaching does not suffer.

KSU is organising a faculty development program on “Excellence in Creative Teaching and Research” in order to enable the faculty of KSU, its affiliated centres and other Sanskrit varsities to continuously upgrade their teaching skills.
