Karnataka Samskrit University

Introduction

Karnataka Samskrit University (KSU) was established by the State Government of Karnataka in the year 2010 through the Karnataka Samskrita Vishwavidyala Act 2009 (KSV Act) passed by the Karnataka State Legislature. The university is currently recognized by the University Grants Commission under section 2F and has been accorded the 12(B) status of the UGC Act, 1956.

Karnataka Samskrit University has been formed exclusively for the development of Samskrit language. Samskrit has a hoary, glorious, scientific, literary, cultural tradition and heritage. Its contribution in the area of Prose, Poetry, Drama, Dance, Sculpture, Paintings, Fine arts, Medicines, Philosophy and other allied areas is far more extensive and lasting than has been realized by the Indian scholars till today.

One hundred acres of land has been allotted for the University in Kuduru, Hobli, Magadi Taluk, Ramanagar District, Karnataka. Construction of the new campus has begun on this land allotted by the Karnataka Government.

The University currently includes three constituent Samskrit Colleges, two constituent research centres, 11 aided affiliated colleges and 66 unaided affiliated colleges under its ambit. There are also 281 aided Veda and Samskrita Pathashalas spread over the State. The university has 495 students studying on the campus and around 30,000 students in affiliated colleges and other campuses. Till date, nine convocations have been conducted where degrees have been awarded to students.

Directorate of Samskrit education is separately established by the Government of Karnataka to administer the Samskrit pathashalas. The Karnataka Samskrit University was established in 2010 by the government of Karnataka with the vision and mission of bringing these together under a single umbrella, maintaining uniformity in education, providing greater opportunities for study for students and teachers and to raise the standards in Samskrit research at National and International level.

Karnataka Samskrit University has three wings. They are

1. Teaching and Research Wing
2. Publication Wing
3. Administrative Wing

Through which the university has to be dynamically active. The university will promote the activities related to Samskrit in Karnataka through these wings.

Objectives and Educational Activities

2. Encouraging students through scholarships.
3. Developing good library facilities in pathashalas and colleges.
4. Developing good hostel facilities in colleges, and providing food-lodging facilities to students with joint effort of the government and local patrons.

5. Encouraging students to organise and participate in Samskritotsavas and Samskrit competitions in each Taluk and district.
6. Identifying outstanding students in BA-Samskrit, MA-Samskrit and Vedic studies every year. Encouraging them through certificates and cash-prizes with the help of endowments, trusts and public funds.
7. Providing special facilities for Samskrit students of scheduled caste, scheduled tribes and other backward classes.
8. Conducting competitions in Samskrit singing, gamaka, and samskrit-sports.
9. Introducing compulsory English and Computer papers at Kaavya, Saahitya and Vidvat exams, and formulating appropriate syllabi for the same.
10. Scientifically revising the syllabus from Prathamaa to Vidvat levels. Ensuring that the texts focus equally on ancient and modern knowledge systems.
11. Creating higher learning centres for Samskrit in North Karnataka, Hyderabad Karnataka, Uttara Kannada, Dakshina Kannada and Central Karnataka. Providing an environment conducive to higher study and research in these centers. Undertaking collaborations with local Samskrit learning bodies.
12. Introducing special package programmes for all pathashalas older than 50 years, and develop infrastructure in these pathashalas
13. Providing equal recognition and opportunities to Vidvat-scholars, as those available to BA and MA degree holders.

Vision for Future

To become a world-class university with a focus on preservation and promotion of Samskrit language and literature through quality education and research using ancient wisdom and modern outlook. The main objectives of Karnataka Samskrit University for the future are

- i. Function as a high-level teaching and research organization in Samskrit language, literature, Vedic studies and Shastras such as Vyakarana, Samkhya, Yoga, Nyaya, Vaisheshika, Mimamsa, Vedanta, Bauddha, Jaina, Dharma Shastra.

- ii. Promote the study and use of Samskrit language in the state. Preserve, foster and promote the traditional system of learning in Vedic, Agamic, and Cognate literature with special emphasis on unique features available in Karnataka.
- iii. Consolidate, revive and promote the Bharateeya Jnana Parampara and bridge the gap between the scientific thoughts contained in the Vedas and Samskrit Literature and modern science - particularly in the disciplines of Agriculture, Astronomy, Biology, Chemistry, Humanities, Information Technology, law and Jurisprudence, Management, Mathematics, Metallurgy, Meteorology, Physics, Social Sciences and Yoga with modern scientific and technological studies.
- iv. Collect, preserve, critically edit and publish rare manuscripts and ancient works by establishing an Oriental Research Institute in Samskrit and computerize and digitize the entire corpus of manuscripts and Sanskrit texts.
- v. Create a network of research-oriented Vedic and Samskrit institutions having similar objectives through reciprocal arrangements with a view to fostering a synergy of efforts.
- vi. Facilitate and regulate advanced study and research fields such as,
 - o Bhagwat Geeta based management science
 - o Yoga-based human Psychology
 - o The relevance of traditional knowledge in domains such as ecology, medicine, archaeology, astronomy, science and technology to the modern world

Emblem

The emblem of Karnataka Samskrit University was created by a famous artist of Karnataka, Sri. Muralidhara V Rathod. The logo, as conceptualized by the honourable Vice Chancellor and the artist, is unique. It contains the title of the university in Devanagari, English and Kannada scripts. Devanagari script has been chosen since the university is established for the promotion of Samskrit language, literature and knowledge. Devanagari has been extensively used since ancient times for representing many Indian languages. Through Devanagari script, the University symbolises the greatness of the divine language, Samskrit. The expanse and global reach of the university is signified by the English script. The university

is the dream-child of the Karnataka government. It is a representative of all Samskrit scholars of Karnataka, and also intends to nurture mutual co-operation between Samskrit and Kannada languages. This is signified by the use of Kannada script in the logo.

The bird used in the logo is Peacock, the National bird. The peacock represents beauty and creativity. The vast expanse of knowledge which will be nurtured by the university is symbolically represented by this peacock. It emphasizes the vision that human life should be entwined inseparably with knowledge.

Motto for the university has been chosen from Mahabharata of Vedavyasa. The motto has been represented in Devanagari script in the logo. 'prajvālito jñānamayaḥ pradīpaḥ' indicates the supremacy of knowledge. This motto represents the objective of the university to unite ancient and modern knowledge systems. The lamp of knowledge should light up this world, going beyond place and time – this is the objective. This lamp will never be extinguished. It is not fueled by oil, but by knowledge itself, and will continue to burn forever. The logo and motto of the university represent this dream, with which the university has been set up.

Infrastructure

1. **Administrative Building:** The KSU has a two storeyed building for administrative needs.
2. **Academic Building:** A three storeyed building is being utilized only for teaching and research. The KSU has a separate Seminar Hall.
3. **Library Building:** The library is accommodated in Sri Chamarajendra College building with the special arrangement for preservation of manuscripts and books.
4. **Transit Hostel/Guest House:** The KSU has a two-storeyed transit hostel/guest house.
5. **Hostels:** The KSU has one hostel on its Bangalore campus and another in Mysore campus.
6. **Playground:** KSU main campus is situated in the heart of city and the Institutional area, with lots of play area and open space.

7. **ICT Resource Center:** The KSU has established “Information and Communication Technology Resource Centre” with sufficient Computer systems in Academic Building.

Prof. Shivani.V

Designation: Professor

Specializations : Sanskrit Vyakarana

Dept. of Vyakarana

Language is an essential communication tool that helps in conveying one's thoughts with others. Grammar is the heart and soul of any language. Sanskrit Vyakarana (as Grammar is called in Sanskrit) is no exception.

The Department of Vyakarana at Karnataka Sanskrit University was started in the year 2019 under the able leadership of Prof. Shivani V. Since then, the department has been preparing students to participate in Vakyarthasadas, a traditional endeavour to preserve and generate knowledge in Sanskrit Sastras, conducting Communicative Sanskrit classes to students to improve their communicative skills in Sanskrit.

At KSU, Philosophy of Grammar is a key subject of study; it is explored through various classical and shastraic texts such as VaiyakaranaBhushanSara, ParamaLaghuManjusha, Vakyapadeeyam, etc.

The foundation of Vyakarana is Panini's Ashtadhyayi. To understand the Ashtadhyayi model, texts such as VaiyakaranaSiddhantaKaumudi, ParibhashenduShekhara, Mahabhashyam etc are studied.

The Faculty Members are active in Propagation and Promotion of Sanskrit Studies in Karnataka. The Department extends both deep and wider knowledge to the students as the syllabus covers both the traditional and modern aspects of Sanskrit Grammar and related subjects. Optional and elective courses offered to other Departments focus on interdisciplinary aspects.

Needless to say that, KSU would make all efforts to strengthen the Vyakarna Department, to be a leader in computational linguistics.

Mission and Vision of the Department

- A student completing courses from the Department of Vyakarana will be able to understand the fundamental process of Ashtadhyayi, identify and generate correct words as per Paninian grammar, and delve into the subjects of Philosophy of Grammar and Shabdabodha.
- The student will be able to read and comprehend the shastraic texts (granthas) by the end of the course.
- The student will understand the linkages between Vyakarana and other fields of Sanskrit such as Nyaya, and appreciate its position as one of the six Vedangas.

- Choice Based Credit Scheme (CBCS) (3 core subjects and 2 optional subjects from other streams)
- Exposure to multiple disciplines like Nyaya, Sahitya, Vedanta, Bhasha.
- Introduction to Sanskrit Computational Linguistics.
- Compulsory project enables students to work on interdisciplinary research.

Mphil (1 Year)

PhD (3-5 Years)

PGDSCL: PG Diploma in Sanskrit Computational Linguistics (1 Year)

- Computational Linguistics is an emerging interdisciplinary area of knowledge which involves 3 major disciplines viz., Information Technology, Sanskrit Vyakarana and Modern Linguistics.
- The core of this new multidisciplinary field of study is Panini's Ashtadhyayi model of Grammar.
- This course introduces students to practical systems with a historical, philosophical and theoretical background, along with training in the design and analysis of algorithms of working systems such as morphological analysers, morphological generators, machine translators etc.
- This in turn will enable the students to not only use these tools but also to undertake development of such tools.

2. Gurukulasvadyaya
3. Science of Natya

Research Projects

Funded Projects

1. An Interpretable Unified Framework for Text-to-Text Translation among Indian Languages using Sanskrit-based Interlingua Representation (3.5 C)

(funded by Ministry of Electronics and Information Technology (MeitY), Government of India)

It is a consortium of 5 institutions, IIT Bombay, IIT Kanpur, IISc Bangalore, Karnataka Sanskrit University, CDAC Bangalore

The project aims at developing a linguistically faithful and interpretable translation system for the translation of speech and text among multiple Indian languages. The project proposes to use an interlingua framework rooted on the traditional grammatical system of Sanskrit. The project will focus on Hindi, Marathi, Sanskrit,

Kannada, Bengali and Malayalam as a representative subset of the Indian languages such that any observations and research innovations catering to one or more of these languages would benefit other languages. Towards this primary objective of speech to speech (S2S) translation, the project will have the following sub-objectives:

2. Mahakosha (The Knowledge Net of all Ancient Sanskrit Koshas) (15 Lakhs)

(Funded by Central Sanskrit University, New Delhi)

Mahakośa is a web application that aims to make this easy for a person to access information from not just one single kośa but multiple kośas. Once developed, users will be able to access information about any given word from multiple Sanskrit kośas. Given a prātipadikam, the tool will be able to provide information about the synonyms that are listed in different kośas for that particular word. The data that will be captured by the tool will be semiological, semantic, ontology apart from usual information such as gender, number and sloka reference. In addition to the synonyms, other information such as its associated words, classification, ontology will also be captured.

3. Shastra Mapping

Funded by SKF Foundation

3. बालाष्टादशी (Balashtadashi)(16 Lakhs)

(funded by Rashtriya Samskrit Sansthan under Ashtadashi Projects)

<http://sambhasha.ksu.ac.in/bala/>

This project is funded by MHRD under Ashtadashi Scheme. The aim of the project is to create interest in the mind of children regarding Sanskrit. To develop memory, focus and concentration skills in children through learning Sanskrit. Series of 18 products in different areas for Children named बालाष्टादशी` Web based, CD based, Android apps, IOS apps. Products contain more of interactive games, activities which enhance the memory, focus, concentration of the children.

4. साङ्गणिकपाळि (10 Lakhs)

(Sāṅgaṇikapāli, Pali language tools)

http://sambhasha.ksu.ac.in/CompLing/pcl_1/html/home.html

This project is funded by Pali Institute, Kalaburgi to develop computer tool for generating and analysing Pali words. The tool is being developed based on the Paninian rules. This module will help the reader to understand the Pali texts. It will be a helping hand for the beginners of Pali language. Pali Morphological generator/analyser and Sandhi Joiner/splitter are available under this portal. Pali machine translation system is developed based on Paninian Grammar.

5. Sarvapatyayamala(2.2 Lakhs)

(funded by Rashtriya Samskrit Sansthan under Ashtadashi Projects)

This project is funded by MHRD under Ashtadashi Scheme. This project aims at editing six manuscripts collected from various manuscript collections. *Sarvapatyayamālā*, is a significant contribution to the tradition of grammar. It narrates elaborately the prefixes and suffixes of Pāṇinian System with suitable illustrations. The work deals with every part of Pāṇinian Grammar with 16 chapters from vibhaktyartha to lakāra i.e. kāraka, vibhaktis, kṛdanta, taddhita, strīpatyaya, samāsa, avyaya and so on. As it is incomplete, the colophon is not available. The text is very useful for beginners of grammar.

Six incomplete manuscripts which are available in verse form in Grantha, Malayalam and Devanagari. There are four manuscripts written in Grantha script. One is in Malayalam script and the left one is in Devanagari script.

Non-funded Research Projects

The Department of Vyakarana allows a student to take up research in the field of Sanskrit Computational Linguistics. A student enrolled in the PGDSCL programme can study subjects related to Natural Language Processing (NLP) which will propel the student to research in related areas.

The following research projects are available to use, which also help in understanding the variety of projects undertaken by the Computing Panini Group (CPG) from within the Department.

The research projects carried out by Department of Vyakarana are available under the web portal Sambhasha. Sambhasha is Sangana-bhasha.

सं-भाषा

Computational Tools for Sanskrit and Allied Languages

Department of Vyakarana

Karnataka Samskrit University

सं-भाषा(<http://sambhasha.ksu.ac.in/>) - सङ्गणकभाषा is a web portal that hosts tools developed free of cost for public. This is a non-profit service that is provided to individuals from diverse groups – Ayurvedic doctors/students, samskrit students and general public interested in traditional knowledge system. The following are the tools developed by the team Computing Panini Group headed by Prof Shivani.

These projects are aimed at students and scholars not just in India but abroad. The tools are expected to benefit students and researchers who are looking to explore traditional Indian knowledge systems and assess their relevance, adaptability or suitability in the current context. It also will be of immense value to students and researches of Philosophy who are interested to pursue study in Indian philosophy but are not able to invest in the study of Sanskrit language. These resources will serve as a bridge to bring this ancient knowledge to the doorstep of scholars and researchers across the globe.

1. वाङ्मयी-ई (Vāṅmayī-e)

http://sambhasha.ksu.ac.in/CompLing/cgi-bin/vanmayi/v_dash.py

Vāṅmayī-e is a web application tool envisaged to create an interface for students, teachers and enthusiasts to explore and understand the richness and vast repertoire of Sanskrit literature. With a pre-edited and curated text as raw input, the tool will analyse the text and provide information about the grammatical structure and elements essential to comprehend the text. The user can then focus on learning those essential aspects of Sanskrit grammar and familiarise with the vocabulary that will serve the purpose of understanding the text. The tool will enable individuals to study these texts who have otherwise not been able to do so because they do not have time to invest in studying Sanskrit language from scratch. The

tool is envisaged to have wide range of applications for novice who want to learn the language as well as experts who wish to acquire deeper insights into the language. Sanskrit has vast database of texts that deal with many varied domains such as astronomy, ayurveda, philosophy, yoga, music and dance and so on. Professionals in these fields cannot have access to this knowledge because they do not have knowledge of Sanskrit language. This project aims to make available these texts in a format that becomes easy for common people to understand the inherent meaning along with related grammatical analysis. This will make it easy for common users to dip deep into the knowledge hidden in our ancient texts.

2. महाकोशः:(Mahākośa - An integrated tool for all Sanskrit Kośa texts:)

http://sambhasha.ksu.ac.in/CompLing/cgi-bin/mahakosha/k_synset_aggregate.py

Mahākośa is a web application that has the capability to incorporate the data structures of multiple Sanskrit kośas. It turns the implicit hypertext-structure inherent in the kośas into a Wikipedia-like network of pages which makes navigation within kośas and between kośas instantaneous for the user. Users will be able to obtain information about a given word, its meaning, its synonyms as well as the context to which it is applicable (general domain, sets of other words it belongs to, etc.). Each kośa has an internal ontological structure which is apparent in the way it is divided into chapters and sections and establishes relations between words. The tool takes advantage of this structure to turn the data they contain into an easily navigable graph. Additionally, an external ontological structure (जाति and उपाधि relations), originally developed when studying the knowledge structure of the Amarakośa (Nair and Kulkarni, 2010), is used to capture broad ontological relations across all kośas. These classifications will be enriched as the project progresses according to the requirements of additional kośas. Data sets from the Amarakośa and Vaijayantīkośa have been used to design the application and validate its model. It is devised to be scalable and is capable to integrate data sets from multiple kośas.

3. आयुस्संस्कृतम्(Āyussamskrtam)

<http://sambhasha.ksu.ac.in/CompLing/aayussamskritam/>

It is an online Courseware for Ayurvedic Medical Students: A course-ware and a study kit of Ayurveda texts based on the Statistical study of Sanskrit syntax employed in Ayurveda texts. The course-ware focuses on the Syntax limited to Ayurveda etymology of technical terms used in Ayurveda.

,

4. Ontological Representation of Shastra Texts

Graphical representation of Shastra texts for interdisciplinary researchers and Sanskrit beginners. Ontological representation of Tarkasangraha text is available under sambhashan portal. Other Sanskrit Shastra Texts are under development.

<http://sambhasha.ksu.ac.in/CompLing/tarkasangraha/>

5. **Vaijayantīkośa knowledge net:** This web-tool helps users to search words in Vaijayantīkośa, understand their meaning and various semantic relations to the given word.

6. नामधातुरूपिका (Building a Namadhatu Generator and Analyzer tool)

<http://sambhasha.ksu.ac.in/CompLing/NamaDhatu/namadhatuhome.html>

There are many Morphological Analyzer and Generator tools for Sanskrit language. The tool developed by Dr Amba Kulkarni and her team takes a word (a string separated by white spaces) as an input and produces its analysis and shows the root and grammatical features. Unfortunately, Namadhatus are not analyzed by this tool. Therefore, for a better understanding of Namadhatus and their forms, there is a need to develop a tool that can handle both analysis and generation of their forms. Namadhatu Generator generates a namadhatu from a given pratipadika and also provides its declension table. Namadhatur analyzer analyses a namadhatu form and outputs its root, pratipadikam and other grammatical/morphological informations.

7. E-SA, The Electronic Śloka Architect:

Computational method for architecture of Sanskrit prosody The advent of computer science has given a new dimension for analysis and recognition of Chandas for a given verse, however there are challenges to recognize partial matches, fault identification and correction and methods to architect śloka for a given Chandas. In this work, the computational algorithm (E-SA, Electronic – Śloka Architect) was augmented to identify a large set of Chandas and provided techniques for partial matches and paradigms for identification of faults and possible corrections.

8. Post Graduate Diploma on Sanskrit Computational Linguistics

Introduced Post graduate diploma on Sanskrit Computational Linguistics at Karnataka Samskrit University for the first time in Karnataka. Computational concepts in our ancient shastras and shabdabodha theories are introduced to the technical students for spreading the Indian traditional wisdom.

9. Pythonskrit Introducing a course of python for Sanskrit for Sanskrit students to learn Python programming language through Sanskrit and Programmers to learn Computing concepts in the Ashtadyayi and other shastric texts The above projects are aimed at students and scholars not just in India but abroad. The tools are expected to benefit students and researchers who are looking to explore traditional Indian knowledge systems and assess their relevance, adaptability or suitability in the current context. It also will be of immense value to students and researches of Philosophy who are interested to pursue study in Indian philosophy but are not able to invest in the study of Sanskrit language. These resources will serve as a bridge to bring this ancient knowledge to the doorstep of scholars and researchers across the globe.

10. उज्जीवनी

Ujjivani is a project envisaged to revive classical languages through Sanskrit. Various learning tools have been developed for Pali language based on Paninian Grammar. Pali Machine Translation, Morphological Analyser, and other tools are made available under Sambhasha portal for the students and scholars of Pali and

other enthusiasts. The Prakrit and other such languages are on hand for developing computational tools.

2. Working as Co- PI

Title of Project: An Interpretable Unified Framework for Text-to-Text Translation among Indian Languages using Sanskrit-based Interlingua Representation.

The project aims at developing a linguistically faithful and interpretable translation system for the translation of text among multiple Indian languages. The project proposes to use an Interlingua

framework rooted on the traditional grammatical system of Sanskrit. The project will focus on Hindi, Sanskrit and Kannada as a representative subset of the Indian languages such that any observations and research innovations catering to one or more of these languages would benefit other languages. Towards this primary objective of text to text translation, the project will have the following sub-objectives:

The sub-objectives are:

- a) Develop an explainable Interlingua interpreter that can capture linguistic characteristics of the languages considered under the framework and facilitate translation among these languages
- b) Develop a text-to-text (T2T) translation module for translation among text in different languages and the Interlingua structure.
- c) Human benchmarking of explainability and linguistic correctness of Interlingua as a post-hoc explainer

## **Ambedkar Studies & Research Centre**

Dr. B.R. Ambedkar popularly known as Dr. Babasaheb Bhimrao Ramji Ambedkar was a multifaceted personality, an intellectual, a philosopher, a patriot, a social reformer, a champion of Dalits, a scholar, a writer, constitution maker, an economist, an eminent lawyer and a feminist. The life of Baba Saheb Ambedkar who overcame all hurdles and achieved phenomenal success should be model for everyone, Despite the hurdles in the initial stages of his life, Baba Saheb went on to become the principal architect of the Constitution. Karnataka Samskrit University truly believes that following the principles and ideals of Ambedkar would be the right way to pay tributes to him. To honor the teachings of Babasaheb the university has exclusively started a Centre for Ambedkar Studies & Research
